

## WHY PARTNER WITH ISE?

The Edward P. Fitts Department of Industrial and Systems Engineering (ISE) at NC State is one of the top-ranked engineering programs in the country. We produce engineers who offer a combination of cutting edge ingenuity, interpersonal skills and business acumen.

The mission of our **ISE Corporate Partners Program** is to:

- develop and sustain strong connections between the department and the business community
- build strong collaborations between students, faculty and corporate partners
- shape department's future direction

The unrestricted funding generated by the program allows us to improve our educational programs and student experiences.

## SENIOR DESIGN CAPSTONE PROJECTS

As part of the ISE Department's rigorous curriculum, all undergraduate students must complete a semester long, team based senior design project. We partner with companies ranging all industries, for example, Caterpillar, EMC, IBM, Novozymes, Revlon and many more. These projects provide invaluable educational experiences for the students and have demonstrated real savings for our partners.
